

Unifiedpost Slovakia at the CFO Forum 2021 in Bratislava

June 21, 2021

21 June 2021. Our local division in Slovakia participated last week in the CFO Forum 2021 in Bratislava. Due to the pandemic situation, the CFO Forum conference took place for the first time in 2 years. The goal is to achieve excellence in financial management by bringing finance professionals and leading finance experts together to meet and inspire each other.

We shared with approximately 250 professionals our experience, knowledge and best financial practices through our unique cloud-based platforms.

Fitekin and Banqup

We focussed on '[Fitekin](#)', our purchase invoice handling solution which offers the flexibility to work remotely since invoices can be processed anywhere as long as you have a device with internet access.

We also introduced a scoop: the upcoming platform '[Banqup](#)', the digital link between accountants and entrepreneurs which cuts back administrative red tape and gives entrepreneurs more time.

Both our platforms attracted a lot of participants and received high evaluation.

"It's good to be back at a live conference! I'm glad that we could present Banqup, our upcoming platform for accountants and entrepreneurs, for a live audience."

Ján Ivančo
Operation & Production Manager, Unifiedpost Slovakia & Czech Republic
