

Unifiedpost Group confirms amicable settlement with FSMA

January 10, 2024

Unifiedpost Group confirms the amicable settlement it reached with the FSMA (Financial Services and Markets Authority). The amicable settlement follows an investigation conducted by the FSMA regarding communication related to the entry of Francisco Partners, with whom Unifiedpost Group entered into a loan agreement amounting to 100 million euros. In exchange, the investment company acquired a 3 percent stake in the share capital of UnifiedPost. Technical communication errors occurred during this announcement on March 7, 2022. As a young publicly traded company on Euronext Brussels, a few oversights were made. Unifiedpost Group has learned valuable lessons from this situation and has since adjusted its procedures to prevent similar occurrences in the future.
