# 5. Notes to the interim consolidated financial statements (unaudited)

#### 5.1 General

Unifiedpost Group SA (the "Company") is a Belgian fintech company providing a complete technology portfolio for document processing, identity management, payment services, added value financial services and postage and parcel optimisation activities. Unifiedpost Group SA is a limited liability company with its registered office at Avenue Reine Astrid 92, 1310 La Hulpe. The interim consolidated financial statements of Unifiedpost Group SA for the 6-month period ended 30 June 2022 (the "Interim Consolidated Financial Statements") comprise Unifiedpost Group SA and its subsidiaries together "the Group".

These unaudited Interim Consolidated Financial Statements were authorised for issue by the Board of Directors on 14 September 2022.

#### 5.2 Basis of preparation

These Interim Consolidated Financial Statements have been prepared in accordance with IAS 34 Interim Financial Reporting. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the 2021 financial statements.

The accounting standards applied in the Interim Consolidated Financial Statements for the period ended 30 June 2022 are consistent with those used to prepare the consolidated financial statements for the year ended 31 December 2021.

The Group has not early adopted any other Standard, interpretation or amendment that have been issued but is not yet effective.

#### Standards and interpretations effective for the annual period beginning on or after 1 January 2022

- Amendments to IAS 16 Property, Plant and Equipment: Proceeds before Intended Use (applicable for annual periods beginning on or after 1 January 2022)
- Amendments to IAS 37 Provisions, Contingent Liabilities and Contingent Assets: Onerous Contracts Cost of Fulfilling
  a Contract (applicable for annual periods beginning on or after 1 January 2022)
- Amendments to IFRS 3 Business Combinations: Reference to the Conceptual Framework (applicable for annual periods beginning on or after 1 January 2022)
- Annual Improvements to IFRS Standards 2018–2020 (applicable for annual periods beginning on or after 1 January 2022)

These amendments do not have a significant impact on the group's financial statements.

#### Standards and interpretations published, but not yet effective for the annual period beginning on 1 January 2022

- IFRS 17 Insurance Contracts (applicable for annual periods beginning on or after 1 January 2023)
- Amendments to IFRS 17 Insurance contracts: Initial Application of IFRS 17 and IFRS 9 Comparative Information
  (applicable for annual periods beginning on or after 1 January 2023, but not yet endorsed in the EU)
- Amendments to IAS 1 Presentation of Financial Statements: Classification of Liabilities as Current or Non-current (applicable for annual periods beginning on or after 1 January 2023, but not yet endorsed in the EU)
- Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2: Disclosure of Accounting Policies (applicable for annual periods beginning on or after 1 January 2023, but not yet endorsed in the EU)
- Amendments to IAS 8 Accounting policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates (applicable for annual periods beginning on or after 1 January 2023)
- Amendments to IAS 12 Income Taxes: Deferred Tax related to Assets and Liabilities arising from a Single Transaction (applicable for annual periods beginning on or after 1 January 2023, but not yet endorsed in the EU)

The Interim Consolidated Financial Statements have been prepared on a historical cost basis, except for the assets and

liabilities that have been acquired as part of a business combination which have been initially recognised at fair value and certain financial instruments which are measured at fair value.

The Interim Consolidated Financial Statements are presented in thousands of Euro and all "currency" values are rounded to the nearest thousands, except where otherwise indicated.

The preparation of Interim Consolidated Financial Statements in compliance with adopted IFRS requires the use of certain critical accounting estimates. It also requires Group management to exercise judgement in applying the Group's accounting policies. The areas, where significant judgement and estimates have been made in preparing the financial statements, are disclosed in note 5.4.

### 5.3 New accounting policies and significant changes

Unifiedpost Group SA has applied the same accounting policies and methods of computation in its Interim Consolidated Financial Statements as in its 2021 Annual Financial Statements.

A new accounting policy was approved regarding the accounting treatment of the Francisco Partner Term Loan Facility. The Loan Facility is accounted by applying IFRS 9 Financial Instruments. The financial liability is measured and classified at amortised cost.

At closing, the financial liability is measured at its fair value, which equals the nominal value of the received amount in Euro minus the directly attributable incremental costs (upfront fee, commitment fee and other legal transaction costs). The commitment fee, payable in Unifiedpost's shares, has been valued at closing date at the fair value of the contributed shares, by multiplying the number of shares with the market price of these shares on the Brussels stock exchange.

Subsequently, the financial liability is measured at cost by applying the effective interest rate method. The commitment fee has been deferred in the proportion that the total committed loan facility is not yet drawn down. This deferred portion will be treated as transaction costs when the draw-down occurs and thus it is not amortised prior to the draw-down.

The accounting treatment is further disclosed in note 5.9, 5.12, 5.15.2 and 5.19.

#### 5.4 Significant accounting estimates and judgements

The Group makes certain estimates and assumptions regarding the future. Estimates and judgements are continuously evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The judgements in accounting policies that are important for the presentation of the Financial Statements are addressed in the following note:

• Going concern – At 30 June 2022, the Company has € 50,6 million net debt. Net debt has been defined as cash and cash equivalents - investments minus interest bearing financial debts (bank borrowings) minus lease liabilities. The Company still has a committed but unclaimed Capex and Acquisition Facility at its disposal amounting to € 25 million, as well as an unused factoring line of € 14,3 million. Based upon the cash forecast for the upcoming twelve months (period: July 2022 until June 2023), the Group will still have sufficient liquidities. Due to the changed business conditions, the Company has decided to make the target to become cash flow break-even its predominant priority. The target is to be cash flow break-even by the second semester of 2023. All costs and investments will further be aligned to B2B e-invoice market developments and market growth. The costs of the Group are meanwhile impacted directly and indirectly by the current inflation and this largely compensated by price increases. The realisation of the growth plan on the one hand, and strong cost control on the other hand, are crucial in achieving this target. Any delay in growth and/or failure to realise the cost control plan can result in cash shortfalls. The group is confident that it can realise this plan or, if necessary, avoid cash shortfalls with additional cost-cutting measures.

The estimation of uncertainties that are important for the presentation of the financial statements are addressed in the following notes:

- Valuation of intangible assets acquired in business combinations inputs used in the valuation models for acquisition-related intangibles based on the following methodologies: the multi-period excess earnings method, replacement cost method, and the relief from royalty method, for customer relationships, developed technology, and tradenames, respectively (see note 5.11);
- **Amortisation of customer relations** the useful life of customer relations has been estimated at 5-15 years. The useful life and the related accounting method are reviewed annually;
- Amortisation of trade names the useful life of brand names has been estimated at 5-10 years. The useful life and the related accounting method are reviewed annually;
- Impairment testing of goodwill and non-financial assets Estimate of future cash flows when determining the recoverable value of cash generating units including goodwill and determination of the discount rate to apply to those future cash flows (see note 5.10);
- **Development expenses** Estimate about whether the conditions to capitalize development expenses in line with IAS38 are being met and more specifically whether there will be sufficient future economic benefits generated by the capitalized development expenses. Furthermore an important element of estimate is linked to the determination of the useful life of each of the internally developed intangibles assets (see note 5.8);
- Deferred tax Estimate of timing and amount of future taxable profits against which unused tax losses can be utilised;
- Fair value measurement Fair value measurement of the contingent considerations, the anti-dilution clauses derivative as well as the liabilities associated with puttable non-controlling interest, are all categorised as a level 3 in the fair value hierarchy of IFRS 13 Fair Value Measurement (see note 5.19); and
- Valuation of financial debt In the context of the valuation of the loan facility, an estimate was made regarding the timing of the call-up of this facility, given the impact on the deferral of part of the transaction cost and the impact on the determination of the annual interest cost of this loan.

#### 5.5 Significant events and transactions

#### 2022 Credit facility

On 7 March 2022, Unifiedpost signed a € 100 million five-year senior facilities agreement provided by Francisco Partners (the SFA). The SFA will allow Unifiedpost to do all necessary investments to be ready with a pan-European full service digital invoicing solution in time to ride the wave of digitization that will roll across Europe.

The facility is structured in a term loan facility of € 75 million and a capex facility of € 25 million. This capex facility is available for 24 months from the closing date.

See for impact on balance sheet and profit & loss in notes 5.9, 5.12 and 5.15.2.

#### **COVID-19 pandemic**

For 2021 and the first half of 2022, there were no indications that the Group's revenue was negatively impacted due to COVID-19. While the Group was recovering quite well from the Covid-impact, in the more traditional paper-related segment of our business, we did noted that some migration projects from paper to digital were postponed impacting some of our operations temporarily.

#### **Geopolitical situation**

The current geopolitical situation is impacting Europe and its economy. Unifiedpost has no direct exposure to Russia or Ukraine. One of the Group subsidiaries is insourcing through a third party supplier a limited number of development services from Livv (Ukraine). Furthermore, the Group has developed an important activity in the Baltics States. In so far the current problems do not escalate further, the Group does not experience any significant negative effects of the current crisis, other than those resulting from general inflation.

General and administrative expenses	22.659	18.572
Selling and marketing expenses	14.624	11.282
Total	109.456	92.219

The total expenses increased from € 92,2 million to € 109,4 million, mainly due to higher cost of services and employee benefits. The increase is attributable to (i) the acquisition of Digithera, Sistema Efactura and Crossinx end of March and beginning of April 2021, (ii) inflation in the first half of the year impacting paper price and salaries, (iii) increasing efforts in marketing expenses and (iv) the additional cost related the expansion of the pan-European structure.

Professional services are lower by  $\leq$  1,2 million for the 6-month period ended 30 June 2022 compared to the same period last year. These services for the first part of 2022 include legal, accounts reporting, recruitment and other fees while during the first part of 2021 the costs were mainly related to acquisition expenses, software consulting services, other consulting fees and the professional services of the acquired companies.

Amortisation of intangible assets, depreciation of property and equipment as well as right-of-use assets and impairments are reported in the following categories of expenses by function:

#### Amortization and depreciation charges by type

#### Allocation to Cash Generating Units (CGUs)

Goodwill acquired in a business combination is allocated, from the acquisition date, to the respective cash generating units ('CGUs') or groups of CGUs that are expected to benefit from the business combination in which the goodwill arose. The carrying amount of goodwill is summarised in the below table:

Thousands of Euro	As at 30 June 2022	As at 31 December 2021

Goodwill is tested for impairment at least annually. The recoverable amounts of the CGUs are assessed using a value-in-use model. The value-in-use is calculated using a discounted cash flow approach, discounted with a pre-tax discount rate applied to the projected pre-tax cash flows and terminal value.

Based on half-year performance, the group has not identified indicators which would lead to accelerate the impairment exercise. The current exercise is planned to be executed in the fourth quarter of 2022.

The Group's principal loans outstanding are:

#### a. BMI Subordinated Loan (unsecured)

Financial Automation Solutions OÜ, the Estonian subsidiary of the Company holding the Fitek group of entities, has, on 19 September 2019, entered into a Subordinated Loan Agreement with "Belgische Maatschappij voor Internationale Investering NV" (the "BMI Subordinated Loan"), with the Company acting as co-debtor. The BMI Subordinated Ioan has a term of 7,5 years, carries an interest of 7% per annum and explicitly ranks behind the Acquisition Facility for payment of principal and interest, as well as in the event of bankruptcy.

#### **b.** Acquisition Facility Buildings Sirius Star

This acquisition facility was granted by ProCredit Banka to Fitek Balkan and relates to the real estate Sirius Star Building in Belgrade. The non-current secured acquisition facility outstanding per 30 June 2022 amounts to € 1.310 thousand and on short-term € 183 thousand is outstanding.

#### c. Acquisition Facility Belfius Bank

In order to refinance past acquisitions, the Company entered into an acquisition credit facility for a total amount of € 25 million with Belfius Bank NV on 12 March 2019, with an increase towards € 34 million on 4 April 2019. The Acquisition Facility was divided in a "Facility A" (€ 17 million) and a "Facility B" (€ 17 million). Pursuant to the terms, the Company has repaid end of September 2020 all outstanding loans under Facility B, together with any break costs and accrued interest thereon. Facility A was repayable in twelve semi-annual instalments. On 11 March 2022 the outstanding amount of € 16,4 million was entirely repaid.

#### d. Liquidity facility Belfius Bank

Belfius Bank NV has granted in August 2021 a liquidity facility of € 5 million to Unifiedpost Group, a revolving facility with a maximum term of 18 months, not covered by the Gigarant guarantee. This facility is entirely reimbursed on 11 March 2022.

#### e. Investment Credits Fitek Balkan

- Unifiedpost doo has currently 4 investment loans agreed with UniCreditbanka (1 loan) and ProCredit Banka (3 loans).
   The long-term outstanding of these credits is € 675 thousand and short-term outstanding is € 460 thousand.
- Unifiedpost Solutions doo and New Image doo have 3 outstanding investment loans with UniCredit banka (2 loans) and ProCredit Banka (1 loan) with a short-term outstanding of € 180 thousand.

#### f. Other bank borrowings

- Factoring agreement with Belfius/BNP: The Company holds its receivables to collect its cash flows. In order to finance its operations, the company occasionally engages in factoring arrangements with financial institutions. These factoring arrangements do not result in an accounting de-recognition. The corresponding asset and liability are recognised, measured and extinguished in line with the guidance of IFRS 9 when the continuing involvement approach is applicable.
- Trade receivables had been sold to a provider of invoice discounting and debt factoring services. The Group is
  committed to underwrite any of the debt transferred and therefore continues to recognise the debts sold within trade
  receivables until the debtors repay or default. Since the trade receivables continue to be recognised, the business
  model of the Group is not affected.
- The transfer of the outstanding factoring debts of € 5.667 thousand is included as short-term bank loans per 30 June 2022. Per 31 December 2021, there was an outstanding factoring debt that amounted to € 1.436 thousand. This increase of our outstanding factoring debt was caused by selling also the trade receivables of 21 Grams.
- Long-term loan with Commerzbank (unsecured): On March 17, 2021, Crossinx GmbH entered into a 'Universal loan' agreement with Commerzbank. The loan has a fixed interest rate of 3,19% and a maturity at 31 January 2027 (€ 750 thousand). No redemption payment was due within the first 12 months. Covenant check will be only required from December 2022 onwards whereby a positive free cashflow is required and an EBIT of €1 million. Per 30 June 2022, the outstanding debt amounts to €703 thousand.

#### Other:

#### • Secured:

- At the end of 2018, the Company entered into an agreement with BNP for € 2.237 thousand to take over the foreign
  Facturis customers of which an amount of € 695 thousand is outstanding per 30 June 2022;
- At SEB Bank in the Baltics, the overdraft facility amounts to € 700 thousand and at Banca Intesa in the Balkan to
  € 200 thousand per 30 June 2022;
- A overdraft facility in Crossinx GmbH is agreed of € 230 thousand per 30 June 2022;
- **Unsecured**: Per 30 June 2022, the Group has € 424 thousand outstanding short-term loans for vacation pay or 13th month.

#### 5.15.2 Other loans

The other loans outstanding are:

#### a. Facility Francisco Partners

On 7 March2022, Unifiedpost signed a € 100 million five-year senior facilities agreement ("SFA"), provided by Francisco Partners, a leading global investment firm that specializes in partnering with technology-enabled businesses. This new granted loan facility is and can be used for refinancing of existing financial debts, financing of working capital requirements, financing of permitted acquisitions, financing of exercised option rights, financing of committed deferred considerations and eventually earn-out payments, financing of transaction costs, fees and expenses.

The key elements out of the SFA are:

- The facility is structured in a term loan facility A ("Facility A") of € 75 million and a capex and acquisition facility ("CAF") of € 25 million. The term loan facility A is funded in full at closing. The CAF remains available for 24 months from the closing date. This part of the facility has not been called per 30 June 2022.
- The senior facility expires in 5 years from closing date on 7 March, 2027.
- The loan bears a 3% cash interest payable at the end of each interest period and an 8% interest paid in kind and capitalised at the end of each interest period (default interest periods are 3 or 6 months). In addition, Francisco Partners received a fee/reinvestment for 3% equity which is already been reinvested in the equity (see note 5.14).
- An upfront fee of € 2,5 million was deducted from utilisation at closing.
- Pursuant to this facility, the Company is subject to two financial covenants, which need to be calculated on a quarterly basis:
  - Financial Maintenance Covenant Minimum Liquidity: the group liquidity must be at least € 20 million, and can be decreased to a minimum of € 12,5 million if the subscription revenue is € 25 million (or more) or the last twelve month recurring digital processing revenue amounts to € 110 million (or more), and;
  - Financial Incurrence Covenant applicable for various transactions such as permitted acquisitions, CAF utilisations Annual Recurring Leverage Ratio ("ARR"): the ratio of the total net borrowings to the annual recurring revenue for the last twelve months is not greater than 1,50:1;
- The loan agreement stipulates mandatory prepayment provisions in case of change of control (>30% of the issued capital) and in case of sale of substantially all of the assets and business of the Unifiedpost Group. Furthermore, voluntary prepayments are generally permitted subject to 3 business days prior notice. The prepayment fees amount to 3% on the amount being repaid during 12 months following the closing and 2% during the 12 months thereafter. No fees are due in case of repayment after 24 months from closing date.
- The loan agreement includes various negative undertakings and restrictions on actions and activities outside the
  ordinary course of business unless these actions are permitted or pre-approved including restrictions on negative
  pledge, disposals of business assets, underwriting of new loans, granting guarantees, prohibition of making
  acquisitions or issuing shares, prohibition on moving jurisdiction...;
- The loan facility is guaranteed by a share pledge on the main Belgian entities, the Dutch entities, and the entities in Luxembourg, UK, Sweden and Germany. In addition to the share pledge, there is (i) an IP pledge on the intellectual property in Belgium and Germany, (ii) a Bank account pledge on Swedish bank accounts, (iii) a business assets pledge in UK and (iv) an intragroup receivable pledge on Unifiedpost Group SA.

Per 30 June 2022, the group liquidity amounts to € 42,7 million and the Annual Recurring Leverage ratio is not greater the 1,50:1, together they entail that Unifiedpost is not in breach with its covenants.

The net proceeds from the Francisco Partner Loan can be summarised as follows:

Thousands of euro	
Facility A	75.000
Upfront transaction fee	(2.500)
Equity fee	(12.756)
Transaction costs	(2.534)

#### Fitek Balkan

On 26 February 2020 a shareholder's agreement was signed in which the Group granted a put option to non-controlling shareholders of Fitek Balkan whereby they have the right to sell their shares to the Group, at a price to be determined at the time of exercise based on an agreed formula approximating a market price adjusted for the fair market value of the Sirius Star's building in Belgrade. The terms do not provide the Group with a present ownership interest in the shares subject to the put option. The amount that may become payable under the option on exercise was initially recognised at the present value of the estimated redemption amount within liabilities. The liability is subsequently adjusted for the changes in value, including the effect of unwinding of the discount and other changes in the estimated redemption amount due to changes in management's assumptions, directly through equity. There is no separate accounting for the unwinding of the discount due to the passage of time. The estimated redemption liability decreased by a total of  $\leq$  902 thousand during 2021, which has been recorded directly in equity. At 31 December 2021, the Fitek Balkan put option was valued at  $\leq$  7.080 thousand. In the first half of 2022, the estimated redemption liability increased again by a total of  $\leq$  3.190 thousand, recorded directly in equity, to a total amount of  $\leq$  10.270 thousand at 30 June 2022.

#### **Unifiedpost Romania JV**

A shareholder's agreement was signed, upon the establishment of Unifiedpost Romania joint venture, in which the Group granted a put option to non-controlling shareholders of SC Unifiedpost s.r.l. whereby they have the right to sell their shares to the Group, at a price to be determined at the time of exercise based on an agreed formula approximating a market price. The put option can only be exercised after 8 December 2023. The terms do not provide a present ownership interest in the shares subject to the put. The amount that may become payable under the option on exercise was initially recognised at the present value of the redemption amount within liabilities. The liability is subsequently adjusted for the changes in value, including the effect of unwinding of the discount and other changes in the estimated redemption amount due to changes in management's assumptions, directly through equity. There is no separate accounting for the unwinding of the

discount due to the passage of time. The estimated redemption liability decreased by a total of  $\leq$  480 thousand during 2021, and by a total of  $\leq$  80 thousand in the first 6 months of 2022, which have both been recorded directly in equity.

At 31 December 2021 and June 30 2022, the Unifiedpost Romania put option was valued at respectively € 520 thousand and € 440 thousand.

#### **Unifiedpost Croatia JV**

On 8 July 2021, the Group established a joint venture Unifiedpost Limited Liability Company, with the aim to provide e-invoicing services in Croatia. The Group has a 51% ownership in this joint venture. On 11 June 2021 a shareholder's agreement was signed in which the Group granted a put option to non-controlling shareholders of Unifiedpost Croatia whereby they have the right to sell their shares to the Group, at a price to be determined at the time of exercise based on an agreed formula approximating a market price. The put option can only be exercised following the 3rd anniversary of the incorporation. The terms do not provide the Group with a present ownership interest in the shares subject to the put option. The amount that may become payable under the option on exercise was initially recognised at the present value of the estimated redemption amount within liabilities. The estimated redemption liability increased by € 180 thousand during the first part of 2022, which has been recorded directly in equity.

At 31 December 2021 and June 30 2022, the Unifiedpost Croatia put option was valued at respectively € 680 thousand and € 860 thousand.

#### Fitek Slovakia

On 23 December 2019, the Group had granted a put option to non-controlling shareholders of Fitek Slovakia whereby they have the right to sell their shares to the Group at some future date after 1 January 2022, at a price to be determined at the time of exercise based on an agreed formula approximating a market price, with a price floor safeguard of  $\leqslant$  900 thousand. The terms did not provide a present ownership interest in the shares subject to the put. The option on exercise was initially recognised at the present value of the redemption amount within liabilities. The liability was subsequently adjusted for the changes in value, including the effect of unwinding of the discount, up to the redemption amount that is payable at the date at which the option first becomes exercisable. On 7 June 2021, the Group exercised the call option right to purchase the ownership interests of the 2 remaining minority shareholders of the company, who owned jointly 49% of the shares, for a total amount of  $\leqslant$  2 million.

#### 5.19 Financial instruments and financial risk management

#### 5.19.1 Financial instruments

#### Categories and fair value of financial instruments

The following table discloses the carrying amount of the Group's financial instruments in categories:

		As at 30 June 2022	As at 31 December 2021
Thousands of Euro	Categories	Carrying amount	Carrying amount
Financial assets			
Trade and other receivables	FAAC (*)	34.693	34.826

Trade and other payables	FLAC (**)	36.149	42.651
Total		142.135	94.331

<sup>(\*)</sup> Financial assets measured at amortised cost

Trade and other receivables, cash and cash equivalents as well as trade and other payables have short terms to maturity, hence their carrying amounts are considered to be the same as their fair values.

For the majority of the borrowings, the fair values are not materially different from their carrying amounts, because interest payable on those borrowings is either close to current market rates or the loans were taken recently. This also applies to the BMI loan which carries an interest of 7% per annum, which reflects the fair value since it relates to a subordinated loan (see note 5.15).

For the Francisco Partners loan, due to the fact that it was a lengthy process where different parties were considered and given the current financial position of the Group, the annual IRR of 14,26% reflects a fair value market rate.

#### Recognised fair value measurements

IFRS recognises the following hierarchy of fair value measurements:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices);
- Level 3: One or more of the significant inputs is not based on observable market data.

The Group's financial assets and liabilities carried at fair value were measured as follows:

	Derivative fin. instr. re convertible bonds	Derivative fin. instr. re anti-dilution clauses	Liabilities associates with puttable non-controlling interests	Total
Thousands of Euro	Level 3	Level 3	Level 3	Level 3
At 1 January 2022	-	535	8.280	8.815
Change in fair value through profit or loss	-	(535)	-	(535)
Change in fair value through equity	-	-	3.290	(3.290)
At 30 June 2022	-		11.570	11.570

The subscription rights are no longer valid since 30 June 2022, consequently these are valued at  $\leq$  0 at balance sheet date.

<sup>(\*\*)</sup> Financial liabilities measured at amortised cost

<sup>(\*\*\*)</sup> Financial assets at fair value through profit or loss

<sup>(\*\*\*\*)</sup> Financial liabilities at fair value through profit or loss

The fair value of the contingent consideration, relating to Crossinx, has been valued at € 0 at 31 December 2021. This estimate is still appropriate per 30 June 2022.

The put options were valued applying a discounted cash flow method and conform with the methodology contractually agreed.

The quantitative information of significant unobservable inputs used in level 3 fair value measurement of the liabilities associated with puttable non-controlling interests of Fitek Balkan can be summarised as follows:

- The weighted annual growth rate of the revenues (14,18%): an increase or decrease of the annual growth rate of the revenues would not affect fair value as put option liability has been capped with call option liability minimal value, which is not dependent on the revenues.
- The applied discount rate (5%): an increase of the discount rate by 1% would decrease fair value by € 180 thousand, a decrease of the discount rate by 1% would increase fair value by € 190 thousand.

The quantitative information of significant unobservable inputs used in level 3 fair value measurement of the liabilities associated with puttable non-controlling interests of Unifiedpost Romania can be summarised as follows:

- The weighted annual growth rate of the revenues (49,50%): an increase or decrease of the annual growth rate of the revenues would not affect fair value as put option liability has been capped with call option liability minimal value, which is not dependent on the revenues;
- The applied discount rate (5%): an increase of the discount rate by 1% would decrease fair value by € 20 thousand, a decrease of the discount rate by 1% would increase fair value by € 20 thousand.

The quantitative information of significant unobservable inputs used in level 3 fair value measurement of the liabilities associated with puttable non-controlling interests of Unifiedpost Croatia can be summarised as follows:

- The weighted annual growth rate of the revenues (97,36%): an increase or decrease of the annual growth rate of the
  revenues would not affect fair value as put option liability has been capped with call option liability minimal value,
  which is not dependent on the revenues;
- The applied discount rate (3,5%): an increase of the discount rate by 1% would decrease fair value by € 40 thousand, a decrease of the discount rate by 1% would increase fair value by € 30 thousand.

#### 5.19.2 Financial risk management

The Group is exposed to a variety of financial risks. The Board has overall responsibility for the determination of the Group's risk management objectives and policies, and whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies to the Group's management.

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Group's competitiveness and flexibility. Further details regarding these policies are set out below.

#### 5.19.2.1 Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. Management reviews cash flow forecasts on a regular basis to determine whether the Group has sufficient funds available to meet future working capital requirements and to take advantage of business opportunities.

Except for the SFA with Francisco Partners (see note 5.15.2), there are no other important changes to our liquidity risk per 30 June 2022 compared to 31 December 2021.

#### **5.19.2.2** Credit risk

Credit risk relates to the risk that a counterparty will fail to fulfil its contractual obligations with the result that the Group would suffer a loss. Compared to 31 December 2021, there are no changes impacting our credit risk per 30 June 2022.

#### 5.19.2.3 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group monitors capital on the basis of the following gearing ratio: Net debt divided by Total 'equity', as calculated below at each reporting date:

		As at 30 June	As at 31 December

#### 5.22 Events after the reporting date

#### Belgian restructuring of activities

On 1 July 2022 a restructuring of the Belgian activities was executed in order to simplify the group structure of Unifiedpost Group SA whereby activities were grouped in some entities with focus on specific objectives:

- The Belgian entities Advanced Document Management Solutions SRL, Inventive Designers SA, Akti SA, banqUP SRL, THE eID COMPANY SA merged into UP-NXT SA. These mergers have been carried out to consolidate the main intellectual property within UP-NXT SA;
- In a second stage, Unifiedpost SA contributed a branch of activity (intellectual property, all related assets to the development activities and people allocated to these business assets) into UP-NXT SA;
- Finally, UP-NXT SA transferred all the existing commercial agreements from all the above cited entities to Unifiedpost SA.

UP-NXT SA is now the entity owning the main intellectual property rights relating to the "Documents" business part, and will thus further develop the new features of this product line. Unifiedpost SA will be the commercial entity for the Belgian market on the one hand and in principal also for the global document SME products (Banqup) on the other hand.

#### **Put option Serbia**

## Statutory auditor's report to the Board of Directors of Unifiedpost Group SA on the review of interim condensed consolidated financial information for the six-month period ended 30 June 2022

#### Introduction

We have reviewed the accompanying interim consolidated statement of financial position of Unifiedpost Group SA as of 30 June 2022 and the related interim consolidated statements of profit or loss and other comprehensive income, cash flows and changes in equity for the sixmonth period then ended, as well as the explanatory notes. The Board of Directors is responsible for the preparation and presentation of this consolidated interim financial information in accordance with IAS 34 "Interim Financial Reporting", as adopted by the European Union. Our responsibility is to express a conclusion on this consolidated interim financial information based on our review.

#### Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34 "Interim Financial Reporting", as adopted by the European Union.
